

COMPANY PROFILE

Who We Are

We are a Bangladesh based international apparel sourcing company founded in 2019. As a young and rapidly growing company, we have already established our trustworthiness based on consistency and service with multiple customers in Europe and are now expanding into new territories.

We are committed to achieving the highest standards when meeting the needs of our customers through competitive pricing and quality. We guarantee timely and reliable delivery. By leveraging our global network, financial strength, market knowledge, and advanced technology, we have the capacity and flexibility to rapidly respond to evolving trends in consumer and production markets.

Our platform for continued success and future growth is built upon our people, our utmost professionalism, our approach to sustainability through the entire supply chain, and through our community engagement.

Key Personnel

Mostafa Kamal Royal
Managing Director

Mission Statement

We aspire to be a world class entity in apparel trading while keeping keen focus on sustainable development and growth through the foremost environmental, human rights, and industrial practices.

Our Services

Research and Development

From concept to design brief, the design and development process translates trends into products that meet the needs of the most demanding of consumers. Our talented and skilled team is always at hand to meet any challenge.

Sourcing

We are committed to finding the right components and factories that share our commitment to quality, compliance and sustainability.

Production

Before production begins, thorough preparations are undertaken to make sure that bulk production of your orders proceeded without a hitch. We express this assurance with confidence. Our reliable core consortium of manufacturing collaborators provides us with continuous oversight of the latest sustainable production technology, ensuring full compliance and ongoing cost-effectiveness throughout the Year

Quality Assurance

Consistency of the quality of products delivered to our clients is of the highest priority and is ensured through a rigorous quality check through every step of the production process.

Logistics

We have the capacity to provide logistical support from the moment the product leaves the factory to the time it reaches the hands of a happy shopper.

Sustainability Practices

Material

We focus on using the most responsible materials that meet the sustainability standards including BCI, Organic, Fair Trade, and Recycled.

Chemicals

Our supplier factories keep the emission of hazardous materials into the environment to a minimum and the chemical waste produced in the production process is treated before dispersion through ETP.

Machinery

The machinery is regularly updated with the evolving developments in technology to minimize the use of natural resources and to maximize efficiency with the least amount of impact on the environment.

Training

The people involved in all stages of the production process are provided with training and education on the best sustainability practices.
